ANVI GUPTA

Computer Science & Engineering Student | Minor in Economics
anvigupta2402@gmail.com • Gurgaon, India • linkedin.com/in/anvi-gupta446779360

SUMMARY

Computer Science undergraduate with an Economics minor who builds AI products for high-stakes settings, from on-device privacy tools to misinformation-resistant search. Built AI-integrated internal tools at a regulatory consulting firm and drove client acquisition as a sales intern. Interested in AI/ML, information retrieval, human-computer interaction and AI in high-stakes industries.

EDUCATION

Shiv Nadar Institution of Eminence, Delhi NCR — Aug 2024 - Present
B.Tech, Computer Science & Engineering | Minor in Economics

Delhi Public School, Gurgaon - Class XII (CBSE): 85.8% | Class X (CBSE): 94.4% — 2022 - 2024

EXPERIENCE

Software Development Intern | Freyr Solutions (Regulatory Affairs & Consulting) — May 2026 - Aug 2026

- Developed **SRS PDF**, a request-management system that streamlines the PDF extraction process end-to-end, with login, tracking dashboard and review workflows (React, Fast API).
- Built a **document redaction tool** for handling sensitive documents, supporting PDF and DOCX files with in-browser review and zoom.
- Conducted **applied research on emerging AI technologies** and integrated AI capabilities into internal tools to support process automation.
- Worked across frontend, backend and UI/UX design, taking tools from interface design through to integration.

Business Development & Sales Intern | Metvy — Jun 2025 - Aug 2025

- Led lead generation, client outreach and client acquisition, converting prospects into closed sales and driving revenue growth.
- Recognised as **Star Intern** for sales performance.

PROJECTS

- **SafeShare** *(React, TypeScript, On-device OCR):* Privacy-first web app that detects and hides Aadhaar, PAN, bank and phone numbers on document photos entirely on the phone, in English and Hindi; caught 34/34 sensitive items in evaluation. Live at safeshare-nine.vercel.app.
- **MythTrace** *(Python, Information Retrieval, RAG):* Health Q&A system over 1,000 crawled MedlinePlus pages, with inverted index, tf-idf, BM25 and PageRank built from scratch. Defenses blocked every planted fake website, and 0 of 96 answers repeated a health myth (team of 3).
- **LitTune** *(Product Design, UX):* Conceived and designed a mood-based book and music discovery platform with a mood board, curated playlists and an embedded music player.
- **AI-Based Sentiment Analysis System** *(Python, NLP, ML):* Built an NLP pipeline that classifies student feedback, turning unstructured data into actionable insights for educational feedback loops.
- **ML-Based Two-Tier Memory Management** *(Python, ML):* Applied ML to optimise data placement across memory tiers, improving efficiency and access performance.
- **Internship & Skill Matching Marketplace** *(SQL, Database Design):* Designed a relational system that matches students to internships by skills and eligibility, with automated candidate shortlisting.

LEADERSHIP & ACHIEVEMENTS

Co-Chairperson, ACM-W, Shiv Nadar — Apr 2026 - Present
Content Lead, ACM-W, Shiv Nadar — Apr 2025 - Mar 2026
Content Lead, HackData Nationwide Hackathon — Jan 2026 - Mar 2026

SKILLS & CERTIFICATIONS

Business & Strategy: Business Development, Client Acquisition, Sales, Growth, Economics, Structured Problem-Solving, Communication
AI / ML & Data: Machine Learning, NLP, Information Retrieval, RAG, Sentiment Analysis, Prompt Engineering, AI Research
Technical: Python, SQL, JavaScript, TypeScript, React, Fast API, HTML/CSS, OpenCV, Relational Databases, UI/UX Design
Certifications: Cisco Networking Academy: Introduction to AI and Prompt Engineering
